

Gala Class Projects, 2011

PRESCHOOL

Our pint-sized Picassos have created a one-of-a-kind art table that is sure to bring color and life to your home or playroom. Using their tiny little fingertips, our three and four year old preschool students created glow worms and fireflies. Each artistic design is personalized with every student's name, so you know just which one is your child's piece of work. Your child will savor the memories of their preschool friends for many years to come. The round table includes four chairs and two green, fabric storage baskets.

TRANSITIONAL KINDERGARTEN

Now I know my ABC's, next time won't you sing with me? The TK Class of 2011 has put together a beautiful, framed piece of artwork. The children are posed in the shape of each letter of the alphabet. The letters are individually matted in a 3/4" opening. The photos are black and white, and the outer dimensions are approximately 43" x 30". What a wonderful way to capture the memories of your child's first year at St. Ignatius School! Sponsored by the Cortes-Torres, Edmiston, Martinez, Prestwich, Prince, Ryan, Salinas, and Thompson Families

THIRD GRADE

No two fingerprints are alike so if you love unique and special, these bowls are meant for you! The 3rd grade class has put their fingerprints everywhere! Three beautifully handcrafted nesting bowls have been decorated with the individual fingerprints of each child. Their fingerprint has been designed into an animal of their choice with additional polka dot fingerprints adding a splash of color. These lovely bowls can be used every day for cooking and mixing but are festive enough for parties too! Sponsored by the Cordano Family

FOURTH GRADE

Our fourth graders have created a beautifully finished mosaic wooden table, perfect for an outdoor patio setting, family room or even as a welcoming piece in a home's entry. Each child has made their own uniquely shaped mosaic art tile from stained glass in a palette of blues, greens, yellows and reds. The tiles have been carefully placed together to craft a one-of-a-kind table top. This sturdy furniture piece also features a mosaic stained glass bottom shelf, perfect for extra storage or to display treasures. This lovely table is 24 inches high and measures 19.5 inches square on the top. This table is made with love by our fourth graders. Sponsored by the 4th Grade Families
