

St. Ignatius Preschool

Here we go with Number 1!

This week we have moved on to the numbers. (That means we only have 11 more weeks of school!?!?!?)

This past week we began our science unit on Caterpillar Metamorphosis. We are having so much fun observing our caterpillars- we can't wait for them to turn from caterpillars to cocoons to butterflies. The kids LOVE

this unit!

We have been talking all about the Easter story. The students have LOTS of questions. Please take the time to talk to your children about this miraculous story.

Please remember to keep praying with your child for their prayer partner.

I am sorry I had to miss the party on Friday. I can

bet it was AWE-SOME!

Enjoy the beautiful weather this weekend! I hope everyone's allergies are better than the DelPiero Family's have been!

Around the classroom

Your child brought home a cardboard box and letter telling you about our Lenten Service project "Pennies for Patients". Please help your child to earn some pennies to put in their box. The

money collected goes to help children, especially local children, fighting Leukemia.

Please find some small jobs around the house for your kiddo to do

so that they can earn the pennies!
