

Covid Protocols

Updated on 9.19.22

We are no longer providing testing on campus for students and our families. Masks are strongly encouraged.

The following protocols are per Diocesan and County guidelines.

Faculty & Staff

Covid vaccinations must be tracked by administration, including boosters.

Students, Faculty, and Staff Who Test Positive

- When a student, faculty, or staff member tests positive, please contact Patty Kochis (916-335-2954) or Katrena Paine (916-261-9902).
- We will ask for the date you tested positive or when symptoms began and answer any questions you may have.
- Individuals who test positive must stay home for at least 5 days and may resume normal activities after Day 5 with a negative test result or on Day 11.
- If an individual returns on day 6-10, he/she must wear a well-fitting mask around others in indoor settings.
- When the positive case returns, he/she will need to bring the Attestation form from the County. This form is posted on Schoolspeak and on the Website.
- We will keep the Attestation forms in the office (confidential file) as evidence that we are following County protocol.
