Subject: Holidays

I wanted to let you know how much I appreciated all of the support that your school gave to Edison during the holidays. The holidays were amazing this year for many of our families. The families that were supported by your school were extremely appreciative. Several have been homeless but trying to do what is best for their children. We have one family that in the past year has kept their three children at Edison while they have moved from Sacramento to Rancho Cordova and then to Del Paso Heights. We delivered the food and presents (which filled up the back of my truck!) to the family. I wish I had a video camera of the reaction we received from the children! It was priceless! They only had a couch and a small Christmas tree in their apartment. We brought two things of food and 5 large trash bags filled with presents to them. It was magical! Thank you so much for supporting our families this year. We appreciate everything and hope that this email can convey how much we thank you for your support. Have a great year!
